### B.Com. PROGRAM OUTCOMES (POs)

After the completion of B. Com. program the students are able to:

**PO1.** Acquire basic and fundamental knowledge and skills for doing business and commercial activities of their choice.

**PO2.** To develop Numerical ability.

**PO3.** Acquire the accounting knowledge, management principles, retail trading, banking and insurance transactions, business economics and financial management.

**PO4.** Acquire knowledge in the field of management accounting, corporate accounting, statistical and mathematical techniques and knowledge relating to corporate law and business laws.

**PO5.** Do a business of their choice or choosing a profession or can become employees having basic knowledge and skill required for such activities.

### B.Com. PROGRAM SPECIFIC OUTCOMES (PSOs)

**PSO 1:** The students can get the knowledge, skills and attitudes during the end of the B.com degree course.

**PSO 2:** By goodness of the preparation they can turn into a Manager, Accountant, Management Accountant, Cost Accountant, Bank Manager, Auditor, Company Secretary, Teacher, Professor, Stock Agents and Government employments and so on.

**PSO 3:** Students will prove themselves in different professional exams like C.A., C S, CMA, MPSC, UPSC as well as other courses.

**PSO 4:** The students will acquire the knowledge, skill in different areas of communication, decision making, innovations and problem solving in day to day business activities.

**PSO 5:** Students will gain thorough systematic and subject skills within various disciplines of finance, auditing and taxation, accounting, management, communication, computer.

**PSO 6:** Students can also get the practical skills to work as accountant, audit assistant, tax consultant, and computer operator as well as other financial supporting services.

**PSO 7:** Students will learn relevant Advanced accounting career skills, applying both quantitative and qualitative knowledge to their future careers in business.

**PSO 8:** Students will be able to do their higher education and can make research in the field of finance and commerce.

### B.Com. COURSE OUTCOMES (COs)

<p><b>SEM I COMPUTER FUNDAMENTAL AND OPERATING SYSTEM –I</b> To impart basic knowledge about Computer, Word Processing, Fundamentals of Computer, Computer Organization, Memory organization of Computer, Concept, Types, Input / Output Devices, Word Processing Formatting Document.</p> <p><b>SEM I PRINCIPLES OF ECONOMICS</b> To impart Economic Laws, Nature, Characteristics, Limitation &amp;</p>	<p><b>SEM - III COMPANY ACCOUNTS</b> This course enable the students to develop awareness about company account, Issue, forfeiture and Re-issue of Shares, Final Accounts of company, Profit prior to Incorporations, Amalgamation of Company, Absorption of Company</p> <p><b>SEM - III BUSINESS MATHEMATICS</b> The objective of this course is to enable the students to have such minimum knowledge of Mathematics, Natural Numbers, Integers H.C.F. &amp; L</p>	<p><b>SEM V COST ACCOUNTING</b> This course exposes the students to the basic concepts and tools used in Cost Accounting and provide an understanding of the applications of Cost Accounting techniques for determination of cost of production.</p> <p><b>SEM V BUSINESS ENVIRONMENT</b> The contents herein intend to develop the ability to understand and interpret sector wise business environment of India.</p> <p><b>SEM V BUSINESS REGULATORY FRAMEWORK</b></p>
---	--	--

<p>Importance, Utility Approach, Elasticity of Demand, Production Function, Cost and Revenue.</p> <p><b>SEM I ADVANCED ACCOUNTANCY</b> To impart basic Accounting Knowledge as applicable to business, Accounting Transactions, Rectification of errors, Sub-sidiary Book, Cash Book, Depreciation Methods, Bank Reconciliation statement.</p> <p><b>SEM I PRINCIPLES OF BUSINESS ORGANIZATION</b> To impart Commerce and Industry, Business, Merger and Acquisition, New Enterprises, Trade In India.</p> <p><b>SEM II COMPUTER FUNDAMENTAL AND OPERATING SYSTEM -II</b> To impart basic knowledge about Computer, MS-Word Processing 2007 and MS-PowerPoint 2007, Operating System Basics, Operating System [Advance], Modern communications, Word Processing working with Table and Graphics, PowerPoint Presentation</p> <p><b>SEM II BUSINESS ECONOMICS</b> To impart Business and Managerial Economics, Market Structure, Factors Pricing.</p> <p><b>SEM II FINANCIAL ACCOUNTING</b> To develop conceptual understanding of fundamentals of financial accounting system and to impart skills in accounting for various kinds of business transaction, Accounts of Non-trading Institutions, Special Accounting Areas : Accounts of Co-operative societies, Accounting for Agriculture Farms, Hire purchases &amp; Installment purchase Accounts, Insolvency Account of and Individuals, Laws of insolvency- Provisions for preferential creditors, Meaning of insolvency, Procedure of insolvency, Problems on Insolvency Accounts.</p> <p><b>SEM II PRINCIPLES OF BUSINESS MANAGEMENT</b> To impart Management Concept, Planning, Organizing, Directing, Controlling.</p>	<p>.C.M. , Linear Equation , Percentage, Discount, Commission and Brokerage, Average, Profit and Loss Mathematics of Finance, Simple Interest, Compound Interest, Ratio and Proportion, Ratio and percentage, Concept of proportion, Simple and Compound proportion, Direct and inverse proportion.</p> <p><b>SEM-III AUDITING</b> To impart Meaning of Auditing, Objectives &amp; Advantages, Types of Audit, commencement of business audit, Internal Check system, Audit program, Routine checking and Vouching, Verification and Valuation of Assets and liabilities, Company Auditor, Appointment, Power, duties, Liabilities, Audit of Divisible Profit, Dividend, Audit Report, Types of Report, Audit of Banking, Insurance &amp; Educational Institutions.</p> <p><b>SEM-III MONETARY SYSTEM</b> To impart Barter System of Exchange and its Problems, Definition and Nature of Money, Functions and Importance of Money, Kinds of Money, Price Fluctuations, Money Market and Capital Market.</p> <p><b>SEM-III Information Technology &amp; Business Data Processing-I</b> The objective of this course is to familiarize with basics of Information Technology and use of Spreadsheet Package for Business Data Processing.</p> <p><b>SEM- IV CORPORATE ACCOUNTING</b> This course enable the students to develop awareness about corporate accounting.</p> <p><b>SEM IV BUSINESS STATISTICS</b> The objective of this course is to enable the students to have such minimum knowledge of Statistics.</p> <p><b>SEM IV INCOME TAX</b> To know Basic concepts, Computation of Income, Income from other sources, Income Tax Authorities and Return of income.</p> <p><b>SEM-IV Information Technology &amp; Business Data Processing-II</b> The objective of this course is to familiarize with basics of Database, Database management System and use of Accounting Package for Business Data Processing.</p>	<p>To help the students to understand the concept of business Laws and it's applications in business regulation.</p> <p><b>SEM V PROCESS BUSINESS I</b> The course aims to educate the students with the different factors which effect business. This course aims to develop ability to understand and scan business environment as well as process in order to analyses the opportunities and take decisions under the uncertainty.</p> <p><b>SEM V CO-OPERATIVE BUSINESS I</b> To grasp the historical development of Co-operatives in India. To Understand and appreciate theoretical development of the co-operative enterprises in India. To appreciate role and relevance of co-operatives in the present economic environment. To develop understanding and insight in co-operative development.</p> <p><b>SEM V INTERNET WORLD WIDE WEB I</b> The course aims at familiarizing the students with the basic concepts and ground rules of Internet and the various services it offers including designing of website and how to access information from depositories in the world wide web.</p> <p><b>SEM V E-COMMERCE</b> The objective of the course is to familiarize the students with the essentials of internet based e-commerce and to make them comprehend its practical aspects as well as growth potential of ecommerce in India.</p> <p><b>SEM VI MANAGEMENT ACCOUNTING</b> This course exposes the students to the basic concepts and tools used in Management Accounting. To provide an understanding of the applications of Management Accounting techniques for management decision making.</p> <p><b>SEM VI ECONOMICS OF DEVELOPMENT</b> To provide an insight into various growth models and their applicability in present scenario.</p> <p><b>SEM VI COMPANY LAW</b> The course exposes to Incorporation of company, Share capital of company, Securities Market, Company Secretary and Company meetings.</p> <p><b>SEM VI INTERNET AND WORLD WIDE WEB II</b> The course aims at familiarizing the students with the basic concepts and ground rules of Internet and the various services it offers including designing of website and how to access information from depositories in the world wide web.</p> <p><b>SEM VI E-COMMERCE II</b> The objective of the course is to acquaint the students with the internet-based e-commerce business models, internet marketing and e-governance.</p>

**B.Sc. PROGRAM OUTCOMES (POs)**

After the completion of B. Sc. program the students are able to:

- PO1.** Develop scientific temperament and attitude.
- PO2.** Inculcate the qualities like observation, precision, analytical mind, logical thinking, clarity of thought and expression, systematic approach.
- PO3.** Handle the unexpected situation by critically analyzing the problem.
- PO4.** Extract information, formulate and solve problems in a systematic and logical manner.
- PO5.** Perform the jobs in diverse fields such as science, engineering, industries, survey, education, banking, development-planning, self-business etc. efficiently.

**B.Sc. PROGRAM SPECIFIC OUTCOMES (PSOs)****B.Sc. (Chemistry)**

A student of B.Sc. studying Chemistry is expected to:

- PSO1:** Acquire basic knowledge of chemistry.
- PSO2:** Gain knowledge of various principles governing chemical reactions which are important in industry and daily life.
- PSO3:** Understand fundamental and basic concepts of organic, in-organic, physical and analytical chemistry.
- PSO4:** Acquire knowledge of mechanistic approach of various organic and inorganic reactions.
- PSO5:** Be competent to apply practical aspects of chemistry by means of qualitative, quantitative and instrumental methods.

**B.Sc. (Botany)**

A student of B.Sc. studying Botany is expected to:

- PSO1:** Be able to develop knowledge about Characteristics of bacteria, viruses, and fungi.
- PSO2:** Be able to identify the major groups of organisms with an emphasis on plants.
- PSO3:** Be able to compare and contrast the characteristics of plants, algae, fungi, Bryophyte
- PSO4:** Be able to explain how organisms function at different levels.
- PSO5:** Be able to explicate the ecological interconnectedness of life on earth.

**B.Sc. (Zoology)**

A student of B.Sc. studying Zoology is expected to:

- PSO1:** Acquire knowledge about various Phyla in animal kingdom.
- PSO2:** Gain knowledge of life and diversity of nonchordata and chordata. **PSO3:** Acquire knowledge of basics of cell and developmental biology.
- PSO4:** Understand the concepts in animal physiology and animal ecology.
- PSO5:** Acquire knowledge of an essence of molecular biology and biotechnology

**B.Sc. (Physics)**

A student of B.Sc. studying Physics is expected to:

- PSO1:** To acquire core knowledge of major topics of physics.
- PSO2:** Gain competence in communication skills for communicating physics phenomenon and basic principles.
- PSO3:** Gain knowledge of the ways and methods to design and conduct an experiment demonstrating various physics concepts.
- PSO4:** To realize impact of physics and science on overall development of the society and develop an understanding of the impact of physics and science on society.
- PSO5:** To apply the conceptual understanding of the physics to general real world situations.

**B.Sc. (Computer Science)**

A student of B.Sc. studying Computer Science is expected to:

- PSO1:** Acquire fundamentals of Computer Science, Component of Computer, generation of computer, types of computer.
- PSO2:** Learn web page design using HTML.
- PSO3:** Learn programming languages such as C, C++, vb to design small application programmes.
- PSO4:** Learn various database, design of database, Structure query language.
- PSO5:** Learn concepts of programming in PL/SQL.

**B.Sc. COURSE OUTCOMES (COs)****SEM I PHYSICS**

1. Able to understand the terminology used in Classical Mechanics, Planetary motion, Gravitational laws, Simple harmonic motion, wave motion, Elasticity & Kinematics of moving fluids.

**SEM III PHYSICS**

1. Knowledge of the concepts in Mathematical Physics and Electrostatics, Magnetostatics and Electrodynamics (Maxwell's Equation, Solid State Electronics Devices- Physics of semiconductors, Electronic

**SEM V PHYSICS**

1. Knowledge of the basics of the Origin of Quantum Mechanics, Development of Schrödinger's equation, Atomic and Molecular Spectroscopy, Nuclear Physics, introduction to Hybrid parameters and

<p>2. Ability to employ conceptual understanding to make predictions, and then approach the problem mathematically.</p> <p>3. Ability to understand the important connections between theory and experiment.</p> <p><b>SEM I CHEMISTRY</b></p> <p>1) Ability to understand periodicity in properties of main group elements and ionic bonding</p> <p>2) Ability to understand electronic displacement effects, reactive intermediates and chemistry of aliphatic and aromatic hydrocarbons</p> <p>3) Knowledge of the fundamentals of thermodynamics and Kinetic theory of gases.</p> <p>4) Knowledge of phase rules and its application to one component system.</p> <p><b>SEM I BOTANY</b></p> <p>After completion of this Course, the student are able to develop the following outcomes:</p> <p>1. Students are expected to familiarize with the morphological and systematic knowledge about different plant groups including Algae, fungi, Bryophyte and Pteridophyte etc. They are able to make use of this knowledge for detailed study in other disciplines.</p> <p>2. The study are able to know about different algal and fungal groups around them, their symbiotic association, and economic importance.</p> <p>3. Students are able to distinguish between different Taxa of Mastigomycotina, Ascomycota, Basidiomycota and Deuteromycotina. They will be become familiar with edible and poisonous fungi and their association with trees.</p> <p>4. Understanding the role of microbes in different field.</p> <p>5. Industry, Food and Agriculture etc.</p> <p>6. The students are able to understand the vast diversity of bacteria and Viruses in relation to Structure, nutrition and Reproduction</p> <p><b>SEM I ZOOLOGY</b></p> <p>Knowledge of the basic knowledge of Animal Kingdom through its classification and evolution of life. They will also learn various systems organized through a well-controlled and developed mechanism.</p> <p><b>SEM I COMPUTER SCIENCE</b></p> <p>Knowledge of the fundamentals of Computer such as Block Diagram of Computer, I/O devices, Memory and its types and basics of OS, Network, types of Network, Network Topology, Internet and fundamentals of programming languages, types of languages, executable statements. They are able to write the algorithms, draw flowcharts and develop programs in c.</p> <p><b>SEM II PHYSICS</b></p> <p>1. Knowledge of the concepts in Kinetic theory of Gases, Thermodynamics, Liquefaction of Gases, Motion of Charged Particles in Electric and Magnetic fields, Electrical</p>	<p>devices- like: BJT, FET, Op-Amp etc., Special Theory of Relativity, Atmosphere and Geophysics.</p> <p>2. Understanding importance of these concepts and phenomena in real life practices.</p> <p><b>SEM III CHEMISTRY</b></p> <p>Knowledge of - 1) Postulates and application of MO theorist application of MO theory for simple homonuclear and hetero-nuclear diatomic molecules.</p> <p>2) Metallic bonding and VSEPR theory for molecular structure.</p> <p>3) Theory of volumetric and gravimetric quantitative analysis.</p> <p>4) Organic chemistry of aldehydes, ketones, and carboxylic acids.</p> <p>5) Stereochemistry of organic compounds especially optical, geometrical and conformational isomerism.</p> <p>6) Thermodynamic equilibrium with reference to Gibbs and Helmholtz free energy.</p> <p>7) Phase equilibria for partially miscible and immiscible liquids</p> <p>8) Surface tension, Viscosity and electrolytic conductance measurements and application.</p> <p><b>SEM III BOTANY</b></p> <p>1. Knowledge of the history of Plant Systematics and its role in classification. They are able to make use of this knowledge for the identification and grouping of different plants based on the anatomy.</p> <p>2. Knowledge of classification on the basis of anatomical difference into different groups.</p> <p>3. Knowledge of the basic anatomical concepts of Primary Structure of Root, Stem, Leaf and Flower. They will be able to discuss the idea of secondary growth.</p> <p>4. Ability to understand the Tissues Arrangement in Root, Stem, Leaf and Secondary Plant Body.</p> <p>5. Knowledge about formation of male and Female gametes, their fusion, development of embryo, formation of seed and endosperm.</p> <p><b>SEM III ZOOLOGY</b></p> <p>Life And Diversity Of Chordata And Concept. In addition to this, To learn evolution of life from a unicellular life to a multicellular organism.</p> <p><b>SEM IV PHYSICS</b></p> <p>1. Knowledge of the concepts in Geometrical optics and interference, Diffraction, Polarization.</p> <p>2. Knowledge of conceptual ideas of Laser, fiber optics &amp; basics of the Renewable Energy Source.</p> <p><b>SEM IV CHEMISTRY</b></p> <p>Knowledge of - 1) Chemistry of d-block and f-block elements.</p> <p>2) Principles involved in extraction of elements and general principles of metallurgy</p> <p>3) Chemistry of poly-nuclear hydrocarbon, reactive methylene compounds and carbohydrates</p> <p>4) Chemistry of nitro and amino</p>	<p>Amplifiers, feedback and oscillators.</p> <p>2. Understanding importance of these concepts and connection between theory &amp; practical and applications to practical devices &amp; systems.</p> <p><b>SEM V CHEMISTRY</b></p> <p>Knowledge of - 1) Various theories of bonding for coordination compounds like Werners, VBT, CFT</p> <p>2) Isoemrism and electronic spectra of complexes.</p> <p>3) Chemistry of heterocyclic and organometallic compounds.</p> <p>4) Chemistry of dyes, drugs and pesticides.</p> <p>5) Principles of photochemistry, quantum yield and luminescence.</p> <p>6) Principles of molecular spectroscopy.</p> <p><b>SEM V BOTANY</b></p> <p>1. Advance knowledge about plant water relation, physiology, metabolism and ecology.</p> <p>2. Understanding about the plant response to different stimuli and plant movement.</p> <p>3. Understanding plant growth mechanism, role of growth hormones in plant development.</p> <p>4. Knowledge of various factor of environment and their impact on plant growth and development.</p> <p>5. Understanding the structure and function of ecosystem.</p> <p><b>SEM V ZOOLOGY</b></p> <p>Animal Physiology And Economic Zoology. Mechanism of working. They will also learn applied and economic aspects of modern zoology by studying various cultures in the field of agriculture and aquaculture.</p> <p><b>SEM VI PHYSICS</b></p> <p>1. Understands the basics of the Statistical Mechanics, MB, BE &amp; FD Statistical distributions, Crystallography, Electrical properties &amp; magnetic properties of the materials, Nanoscience &amp; nanotechnology and Superconductivity.</p> <p>2. Understanding connection between theory &amp; practical.</p> <p>3. Competence regarding practical applications of these concepts in real world.</p> <p><b>SEM VI CHEMISTRY</b></p> <p>Knowledge of - 1) Kinetic Aspects of Metal Complexes</p> <p>2) Spectrophotometry, Calorimetry and chromatographic analytical methods.</p> <p>3) Chemistry of metal carbonyls, inorganic polymers and essential elements.</p> <p>4) UV, IR, NMR and Mass spectroscopy for structure elucidation of organic compounds.</p> <p>5) Elementary quantum mechanics and Schrodinger wave equation.</p> <p>6) Electrochemical Cells and principles of nuclear chemistry.</p> <p><b>SEM VI BOTANY</b></p> <p>1. Knowledge about genetic material i.e. DNA, RNA etc.</p> <p>2. Understanding about the recombinant DNA technology, protein</p>
---	---	---

<p>Network Theorems &amp; ac current. 2. Understanding importance of these topics in real world.</p> <p><b>SEM II CHEMISTRY</b> Knowledge of - 1) rules of polarizability and concept of covalent bonding. 2) Theories of acids and bases. 3) Chemistry of p-block elements 4) Chemistry of non-aqueous solvents 5) Chemistry of organic compounds conating halogen and oxygen like alkenyl and aryl halides, alcohols, ethers, epoxides and phenol. 6) Physical properties and relation to molecular structure. 7) Fundamentals of chemical kinetics.</p> <p><b>SEM II BOTANY</b> 1. After studying this course students develop better understanding of the Concept of Fossilization. Students will be expected to know about the general characteristics of Gymnosperms and their affinities with Pteridophyte and Angiosperms. 2. Through this course students will get the better opportunity to understand the plants taught in theory, their morphological features through preserved specimens and slides. 3. Students would get the knowledge about all morphological parts of the plant. 4. Students also get knowledge about utilization of plants in spices, timber.</p> <p><b>SEM II ZOOLOGY</b> Ability to understand basics and fundamentals of life by studying cell, its organelles and their functions. They will also learn preliminary ideas of fertilization and development of life.</p>	<p>compounds 5) Colligative properties and Crystal state.</p> <p><b>SEM IV BOTANY</b> 1. On successful completion of this course students are able to describe, apply and integrate the basic concepts of Cell Biology Genetics and Biochemistry, Structure and Functions of different Organelles. 2. Understanding the structure, types and aberration of chromosome. 3. Understanding gene interaction and develop skill to solve genetic problem 4. Knowledge about gene mutation, linkage and crossing over etc. 5. Understand different types of enzyme and their mechanism of action. 6. ## 2.6.2 Attainment of Programme Outcomes (POs) and Course Outcomes (COs) are evaluated

### Institutional Mechanism to Assess the Attainment of Course Outcomes, Program Outcome and Program Specific Outcomes:

Institute focuses on the outcome-based education which is also mentioned in NEP 2020. Institute has mechanism to evaluate POs, COs & PSOs in which, the COs were evaluated directly through the assessment of semester end examination of university and the performance in internal assessment. The attainment was calculated by summing up the scores of students and dividing the total by the number of students who enrolled for the course.

#### Course Outcomes Attainment:

If the attainment scores of the given course is greater than 90 but less than or equal to 100 then the overall attainment of the course is **Outstanding**, if the scores are greater than 80 but less than or equal to 90 the overall attainment is said to be **Excellent**. If the attainment scores of course is greater than 70, but less or equal to 80 then the attainment of CO is said to be **very good** while the attainment scores of course is greater than 60 but less than or equal to 70 are said to be **Good**. If the attainment scores of course are greater than 50 but less or equal to 60 then the attainment is said to be **Average**. If the attainment scores of course is greater than 40 but less or equal to 50 then it is said to be **Satisfactory**. If attainment scores of the course were below or equal to 40 then the overall attainment is said to be **Unsatisfactory** and the attainment scores below 30 are said to be **Highly Unsatisfactory**.

CO Score	Grade
>90 but ≤ 100	Outstanding
>80 but ≤ 90	Excellent
>70 but ≤ 80	Very Good
>60 but ≤ 70	Good
>50 but ≤ 60	Average
>40 but ≤ 50	Satisfactory
≤40	Unsatisfactory
< 30	Highly Unsatisfactory

#### Evaluation of Program Outcomes:

At the end of each program, evaluation of attainment of POs is done from the attainment of COs and PSOs of all subjects. The results of final year examination both internal as well as theory and practical were separately evaluated. Other key parameters such as percentage of students due for award of degree, student's progression to higher education, student's placement and performance in sports was also considered for the evaluation of program outcome. Students' feedback was also important factor in assessment of program outcome.

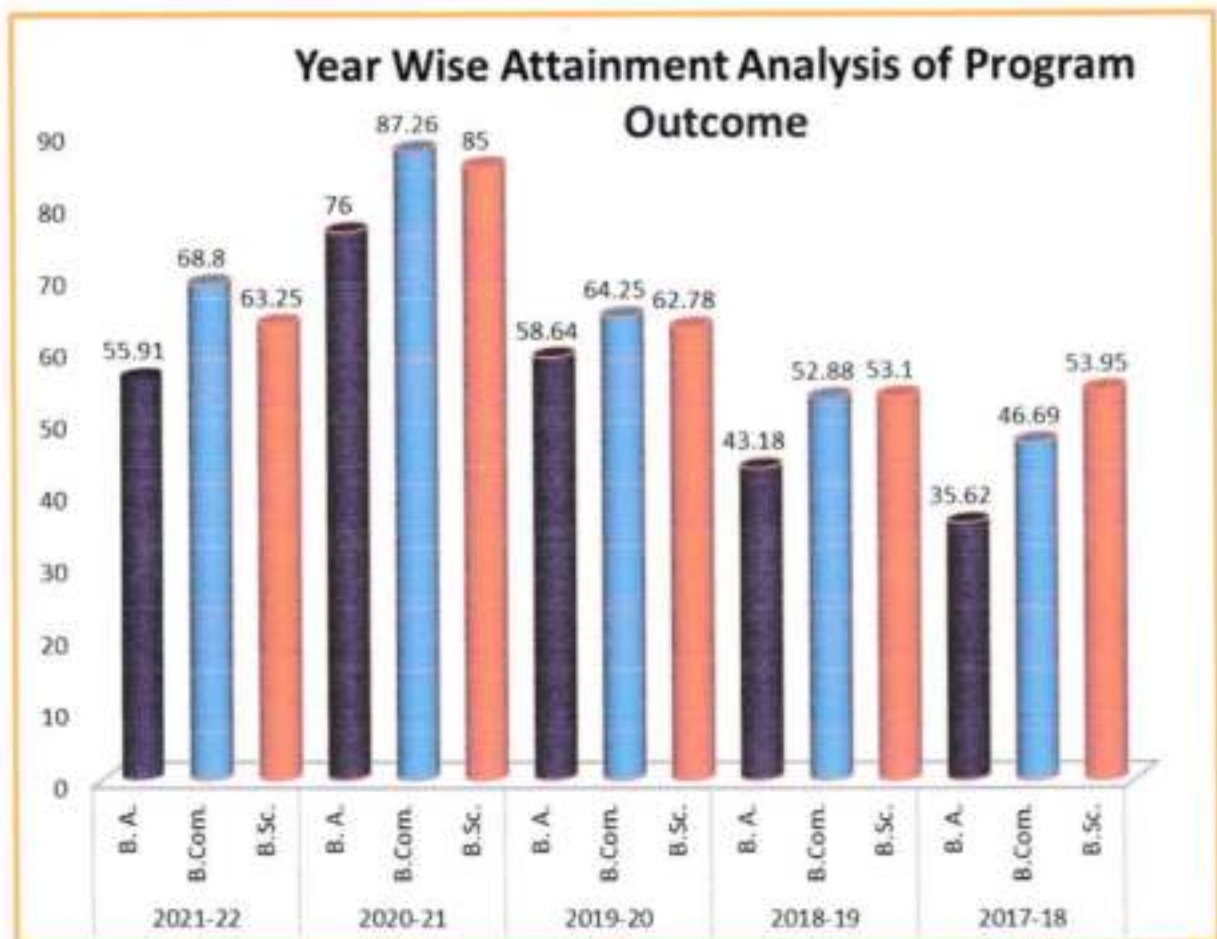

#### Report Analysis of POs, COs, & PSOs

IQAC collects quantitative reports of attainment of POs & COs from various departments and analyze them and if needed suggestions were communicated to concern Departments.
