DATE: 01/12/2019

Time: 12.00 PM

Venue: Seminar Hall

Objective:

1. To raise awareness about HIV/AIDS: The primary objective of celebrating AIDS Day by the NSS Unit is to raise awareness about HIV/AIDS, its causes, and its impact on individuals, communities, and society as a whole. The event can provide a platform for educating the public about the importance of getting tested, the dangers of stigma and discrimination, and the need for continued efforts to prevent the spread of the disease.
2. To promote prevention and reduction of HIV transmission: The NSS Unit can use AIDS Day to promote education and prevention efforts aimed at reducing the transmission of HIV. This can include information about safe sex practices, harm reduction measures for drug users, and the importance of early testing and treatment for those who are HIV positive.
3. To support people living with HIV/AIDS: Celebrating AIDS Day by the NSS Unit can also serve as an opportunity to show support for people living with HIV/AIDS and to raise awareness about the challenges they face. This can include highlighting the importance of access to medical care and antiretroviral therapy, as well as the need to address stigma, discrimination, and other barriers faced by people living with HIV/AIDS.

By raising awareness and promoting education and support, the NSS Unit can play a critical role in helping to prevent the spread of HIV/AIDS and in supporting people living with the disease.

Program highlights:

Archana Susare, Mr. Devanand Tayade (Lab Scientist from RH, Warvat Bakal) talked with the participants on this occasion. Blood Testing was also carried out on this day.

Outcomes:

1. Increased awareness about HIV/AIDS: Celebrating AIDS Day by the NSS Unit can result in increased public awareness about HIV/AIDS, its causes, and its impact. This can help to dispel myths and misconceptions about the disease and

encourage people to learn more about how to protect themselves and others from transmission.

2. Reduction in stigma and discrimination: By raising awareness about the challenges faced by people living with HIV/AIDS, the NSS Unit can help to reduce stigma and discrimination associated with the disease. This can create a more supportive and inclusive environment for people living with HIV/AIDS, which can be critical for their overall well-being and health.
3. Improved access to information, testing, and treatment: Celebrating AIDS Day by the NSS Unit can also help to improve access to information, testing, and treatment for people living with HIV/AIDS. By promoting education and awareness, the event can encourage people to get tested and to seek medical care if they are diagnosed with the disease, which can help to improve their health and reduce the spread of the disease to others.
