FEEDBACK ANALYSIS 2017-18**Part B of AQAR (1.3)**

The feedback forms were duly filled up preferably by final year students as per the subjects. Ten forms were selected by randomization as a sample of each subject to analyze the data. The form consists 20 multiple choice questions having 04 options to each. Hence, 20 questions × 10 forms = 200 questions were taken for evaluation. The percentage of evaluation falls into four options i.e. A, B, C & D as shown in the following table.

Notes : A = Strongly Agree B = Agree
 C = Agree D = Strongly Disagree

Sr. No.	Name of Teacher	Department	A	B	C	D

Best Practice I Part B- Criterion VII - (7.3)

Title of the practice: Facility of Higher Education with minimum expenses

Goal:

Today this number has gone up to 1000. Initially only Arts faculty was run by the college. But in ensuing years as the scope of college activities increased, for the sake of convenience, Higher Secondary School in Science stream and Commerce and Science at degree level faculties are started in 2003 and 2009 respectively on Non-Grant basis.

Context:

We are well aware of all difficulties and adversities, rural communities have to face, therefore they made it a specific point to create favorable atmosphere on the campus to meet the needs of such students. They frequently visit our campus and interact with students and their guardians. This close association and bonding makes rural students to rush for admissions in our college. Teaching and non-teaching staff also maintain a rapport with students, thus shy and diffident rural students very soon get used to the college atmosphere.

Practice:

By remaining true to our mission, the Society has set an objective before itself of providing quality education to most disadvantaged and down-trodden section of the society. Towards this Society has made all possible efforts and succeeded in achieving its goal during last 22 years. Annual income of majority of families belongs to Below Poverty Line. The institute has made it a point to provide all essential facilities to such students so that financial constraints should not deprive them of education.

- 1) Students avail all government welfare schemes and scholarships easily in the college, because they are always provided timely information about all such schemes through college prospectus, notice boards and prior publicity.
- 2) Scholarship forms of all students are filled up on-line.
- 3) Scholarship transactions are done through banks.
- 4) Students are informed about scholarship through Telephonic communication also.
- 5) Essential documents and certificates are issued to the students getting accommodation in government hostels.

Along with financial difficulties, academic difficulties of the students are also properly taken care of by the college-

- 1) Rural and tribal students obtaining comparatively average marks in S.S.C. and H.S.S.C. examination and that to in more than one attempts also are not denied admissions in our college.
- 2) Students belonging to reserved categories are given admissions on priority basis.
- 3) Admission forms and prospectus are made available in Regional Language.
- 4) Members of admission committee extend proper guidance regarding admissions.
- 5) Admission to degree classes is completed on the same day.
- 6) Compulsory English is taught considering general level of grasping and understanding of rural students, by reducing its difficulty level and making it interesting.
- 7) Revision of entire syllabus is taken for the benefit of slow learners.
- 8) For internal assessment, marks are given to attendance, participation in various programmes, tests and tutorials.
- 9) All text books are made available in the central library.
- 10) Entire prescribed syllabus of the year is completed in the classrooms.
- 11) Preparation of university examination is done with the help of test examinations.
- 12) All students taking admissions to the college are consistently given proper guidance so that they can successfully complete their degree education.
- 13) On the campus, maximum essential physical facilities for educational needs are available.
- 18) In Chemistry, Zoology, Botany and Computer Science Departments well equipped laboratories are available.
- 19) ICT technology has been adopted to impart education to students in a modern way.
- 20) In the Central Library there are more than 4000 books including text books, reference books, encyclopedia etc.
- 21) Discussion sessions, workshops and seminars are organized in the college from time to time.
- 22) Study tours and excursions are organized regularly.
- 23) An affectionate rapport is continuously maintained between teachers and students.
- 29) Alumni actively participate in college activities.

Evidence of success:

As a measure of Best Practice of the college our institute has taken up a responsibility of imparting quality education to students belonging to tribal, backward, down trodden and farming communities of the region. To succeed in this area and fulfill the goal, our institute has made every possible sincere effort during last 24 years. Even cursory retrospective of the Society's performance during this period reveals and bring to the notice a number of milestones of success. Student is at the focal point in entire education system, with this view

the Society has set before itself a noble goal of bringing disadvantaged and neglected sections of the society into national mainstream by employing medium of education, in this aspect of increasing social conditioning. The Society has achieved glorious success by starting Higher Education in Agriculture, Horticulture, Agriculture Engineering, Agriculture Polytechnic and KrishiVidnyan Kendra (KVK) at headquarter i.e. Jalgaon (Jamod) . The review taken for the purpose of the NAAC's assessment and accreditation measure itself is self evident.

It is, in our view, one of the indicators of the Best Practice adopted by the college. Thus majority of our students achieve their goal of self development and enrichment, contributing to overall social development by completing their education.

Problems encountered and resources required:

Difficulties encountered and faced in order to fulfill the noble goal adopted as a part of Best Practice of the institute are equally vast and varied. Of course the institute has employed various meaningful and effective measures to overcome them.

The major problems in achieving desired goal before the institute are as follows:

- 1) To attract students from tribal and rural regions towards the college
- 2) To reduce and decrease difference level and shyness of students and to instill and develop communication skills among them.
- 3) To minimize the Drop-out rate.
- 4) To upgrade the Exam Result.
- 5) To provide financial assistance to the poor and B.P.L. families along with their wards.
- 6) To lessen undue fear complex regarding English language from the minds of the students.
- 7) To fill on-line application forms and other related documents essential for availing of various free ships, scholarships and similarly to open accounts of each student in the banks.
- 8) To provide vocational guidance for seeking employment opportunities to students.

Taking in to consideration all above stated problems, the institute has conducted an in-depth study to find out solutions and measures for the same. Review of the same is as follows:

- 1) Reputation of any institute is a yardstick to measure its success and performance and it could be the right kind of advertisement of the institute. Since our institute never made any adjustments as far as merit and quality was concerned, there was never a single instance in the history of 22 years of the college, when any doubt or question was raised about its reputation in the entire region of SGB Amravati University. It is due to this flow of students and adequate feeding had never been a matter of concern for us. Even today the college has maintained the same steady flow of students. We sincerely believe that our alumni are our real missionaries who voluntarily canvass of our quality.

- 2) As it has been earlier stated, shy and diffident tribal and rural students generally hesitate to mix and communicate. Our teachers help them a lot to shed their shyness and establish communication with others.
- 3) Majority of Girl students after H.S.C. would stop education. They are provided guidance about various future prospects.
- 4) Since many of our students come from nearby villages; commuting was the main problem for them as no transport is available in the morning. So, an elaborate college time-table has been devised and put into practice using noon shifts.
- 5) Students are well Aware and in desperate need of financial assistance in the form of free ship and scholarships. To ensure utmost fairness, all activities and applications and forms are completed on-line. For this students have to open their accounts in the Bank. The college makes prompt recommendations to the bank, so that it becomes easy for students to complete the formalities of the bank.

Best Practice II

Part B - Criterion VII - (7.3)

Title of the practice: Book Bank

Goal:

- To help the students of poor and weaker sections of the society with reading materials in the form of books.
- To help those students who can't purchase the books necessary for their studies.
- To help them to come at par with the students of privileged class of the society.
- To inculcate the habit of reading among students.
- To enhance the reading skill of the students.
- To enable them to improve their performance in the examination.

The Context:

The institution is committed to inculcate human values incorporated in the preamble of the Indian constitution: liberty, equality, fraternity and justice. National integration is the sole motto while imparting education to the students irrespective of caste, creed, sects and religion. The institution is located in Warvatbakal which is a small village in Buldana District. The institution has been serving the educational needs of people living in WarvatBakal and its adjoining areas, especially those who come from the weaker sections of the society. More than 90% of students belong to educationally backward classes and poor families with no proper guidance at home.

As a part of social commitment, the Library of the college give aid in the form of books to the students who come from weaker section of the society in order to create the educational interest among them.

The practice:

After the beginning of the session, the college invites applications from the students of weaker section of the society for the book bank scheme every year. The college informs about the scheme by notifying it on the college notice board as well as circulating notices in the class rooms. The students are required to submit income certificate to ensure whether they are eligible for financial support in the form of books. After the applications along with income certificate are received from the students for books, the Library Staff verifies them with the records from the office to determine the financial condition of the respective students

and come to the conclusion whether the student concerned are very poor and need help from Book Bank.

Later on, the students are allotted the books for a session.

Evidence of success

During the last four years, more than 175 students were benefited from this scheme. Apart from this, the institution has succeeded in inculcating the habit of social commitment, creating educational interest and increasing reading habits among the students. Many students of the college have achieved ranks in the university examinations. Some students have also got success in competitive examinations and other fields. In this way, this scheme contributes to the development process of the college.

Problems Encountered and Resources Required

The institution does not encounter any problem for implementing this unique practice.
