We conducted regular in-person meetings with our mentees, where we engaged in meaningful conversations addressing a range of significant topics. These discussions encompassed academic challenges, family-related issues, and the students' career aspirations. After attentively listening to their concerns, we made a concerted effort to provide guidance and information to help them overcome these challenges. Our primary goal was to nurture a positive belief in their own potential.

Here are some of the topics we discuss with the students during these meetings:

1. **Scholarship Details:** We provided students with information on how to fill out scholarship forms and navigate administrative cooperation.
2. **Student Attendance:** Recognizing the pivotal role of attendance in academic success, we inspired our students to be present and engaged in every lecture. We ignited the flame of curiosity and the thirst for knowledge in each of them.
3. **University Examination Patterns:** The ever-evolving landscape of university examinations can be daunting. We illuminated the path forward, helping students to understand the new syllabus and examination patterns.
4. **Library Facilities Utilization:**
 - We discussed maintaining discipline in the reading section of the library.

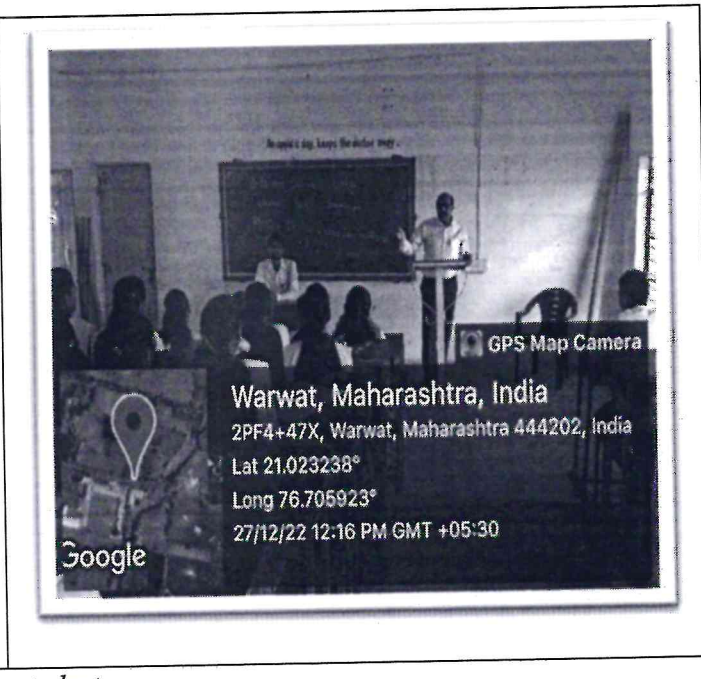

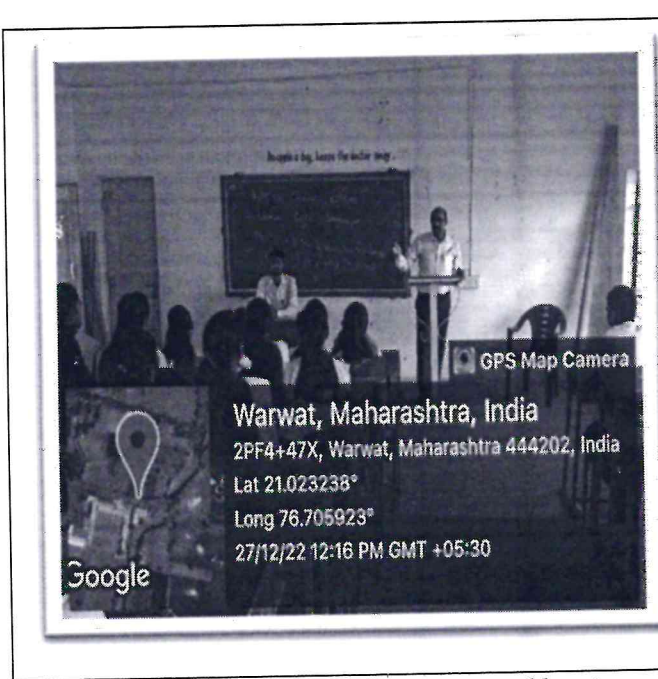

- We recommended the use of reference books.
 - We addressed issues related to unavailable books in the library.
5. Competitive Forum of the College: We emphasized the importance of utilizing the placement and competitive forum of the college to receive guidance on career opportunities available on campus.
 6. Participation in Curricular and Co-curricular Activities: We motivated students to actively participate in cultural and co-curricular activities organized by the institute.
 7. Addressing Student Concerns: During our interactions, students raised concerns about the cleanliness of classrooms and laboratories. We assured them that steps would be taken to ensure clean and hygienic learning environments.
 8. Student leadership: The program empowered students to take on leadership roles, fostering a sense of empowerment and responsibility. These leadership skills will serve them well in their future endeavors, whether in environmental advocacy or other fields.

We believe that these mentoring sessions were fruitful and provided valuable assistance to the students in dealing with their issues and concerns

Mentor – Mentee Report:

The mentor Mentee cell of our college has allotted us b.com second year students as a mentee to and accordingly to the policy of this we had an interaction with the students successfully and tried to resolve their issues at our end to minimize their problems, The major issues we had discussed with them were about attendance upgrading, academic enhancement and also result improvement.

After analyzing about their performance in account subjects which details are stated as below, we discussed the account subject related issues with them and then provided them some few advices along-with a soft copy of notes for their practices so that they can improve their results. We also discussed with them about Extra and Co-curricular activities and motivated them to participate in such activities.

Description about Issue raised by students	Resolving of Issue
Demand for improving company account subject result	The issue for improving results was discussed with mentee by providing them few advices to do better in upcoming summer examination

The above issue was sorted out with the involvement of mentee which is mentioned as below.

The academic performance of the mentees allotted to us for the academic year 2022-2023 was evaluated by evaluating the achievement of COs on the basis of IA and Final Exam. Then finding the cause of poor results and then counseling them to improve their results, the details of the same are given as below.

Result Analysis of ODD Semester End Examination conducted by SGBAU 2022-2023

A- No. of students those who have scored > 75% Marks

B- No. of Student those who have scored $\geq 60\%$ marks but $\leq 75\%$ marks

C- No. of Student those who have scored $\geq 50\%$ marks but $< 60\%$

Semester III (W-2022)								
Subject	Appeared	Passed	%	A	B	C	D	Fail
COA	115	37	32.17	1	5	21	10	78

After analyzing the result for the subject company account, the first observation found for the poor result was that, they were depending on notes only and second other major drawback was that they were having low ability to quickly understand and comprehend new information.

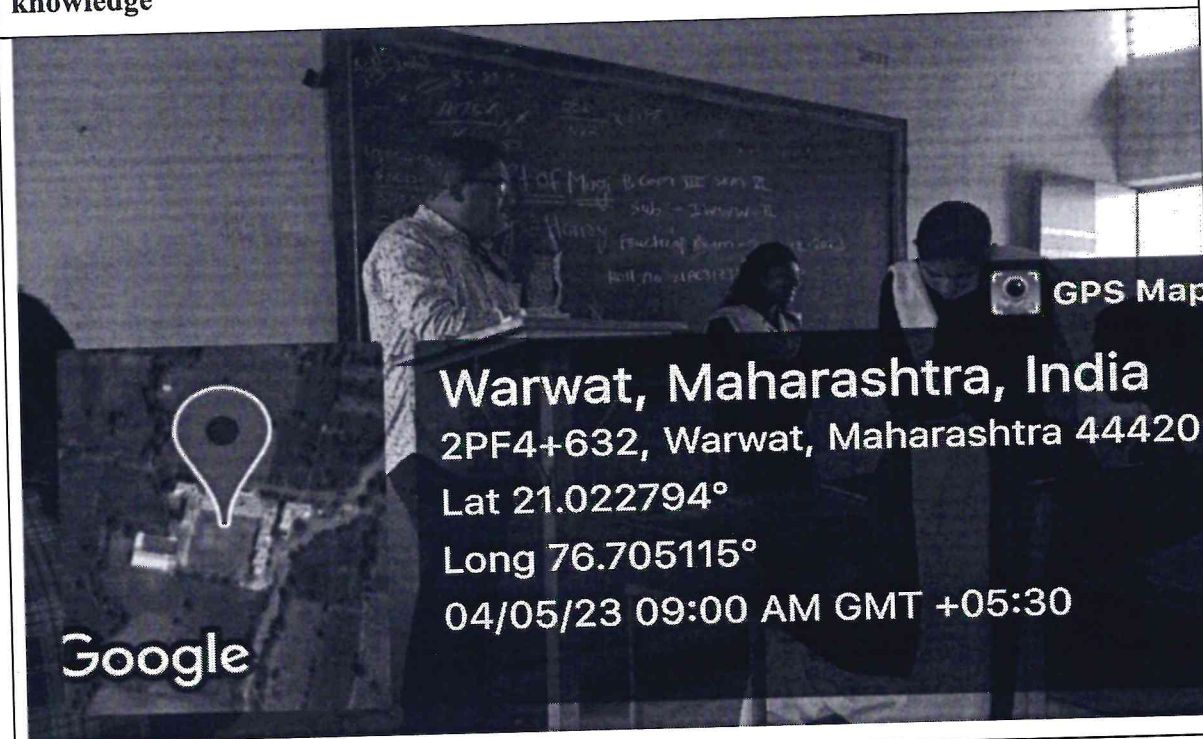

On the basis of the above observations following advices were given by us.

- ❖ The students were advised to practice and revise the subject material regularly to retain the knowledge better. They were asked to do regular revision as it will help them in strengthening their concepts and remembering the important points.
- ❖ The notes and solved SGBAU examination problems will be provided to them in soft copy on their what app group.
- ❖ They were also advised to visit library frequently to review study material related to their subject.
- ❖ The students were also advised to review the subject material thoroughly to fill any gaps in knowledge.
